

AMENDMENTS TO THE SPECIFICATION:

Please amend the paragraph beginning on page 28, line 8 as follows:

The storage section 33 is made up of a rewritable storage device such as a RAM in the same manner as that of the first embodiment, and comprises a plurality of job ticket storing areas for a remote operation apparatus 33a to 33c, on top of the job ticket storing area for the mainframe operation section 29a. It is possible to store a job ticket for a remote operation apparatus in each of the job ticket storing areas for a remote operation apparatus 33a to 33c. In addition, it is enough if only there are a plurality of these job ticket storing areas for a remote operation apparatus 33a to ~~[[33b]]~~ 33c, and the number of them is not particularly limited.
